 - 4 Solicita cotización
- ¡Así de fácil!

¿Sabías qué el unigel se puede reciclar?

Así es, nuestras molduras están hechas en México en un proceso de fabricación sustentable en donde le damos una segunda vida al unigel y lo transformamos en Poliestireno, un material muy resistente y de gran durabilidad.

¿Cómo es el proceso de reciclaje?

RECOLECCIÓN

Comenzamos recolectando unigel, se descontamina y se comprime.

RECICLADO

El unigel pasa por un proceso limpio que reduce el impacto ambiental para rehusarse como material de fabricación.

FABRICACIÓN DE MOLDURA

El material reciclado pasa por moldes de diversas formas y tamaños para convertirse en los marcos de nuestros productos.

ARMADO DEL PRODUCTO

Terminamos con un artículo de diseño único, acabado fino y de gran durabilidad listo para decorar tu entorno.

NATURE

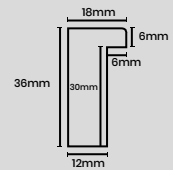

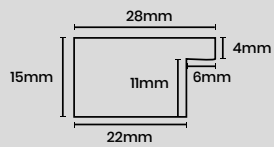

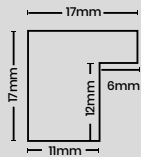

Hace tiempo que lo natural ha dejado de ser una tendencia para consolidarse como un life style. Y la decoración con marcos no es una excepción.
